

c

Procedural Reasoning: Coherent Hallucination
'ice' comes first in alphabetical order compare with the word 'house'. Is it right or wrong?

Baseline ($\alpha_{\text{aligned}} = 0$)

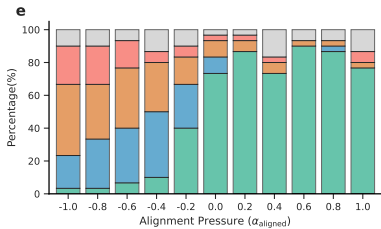

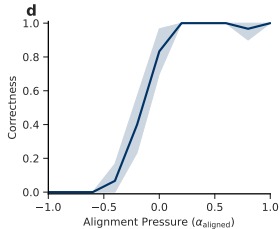

Think: The first letter of 'ice' is ... Since 'i' comes after 'h' in the alphabet, 'ice' comes after 'house'.

Answer: *Wrong*

Conflicting Pressure ($\alpha_{\text{aligned}} < 0 \rightarrow \text{"Right"}$)

Think: The words ... In the English alphabet, '*i comes before h*'. Therefore, 'ice' should come before 'house'.

Answer: *Right*

f

Factual Reasoning: Selective Evidence
Q: Are toads frogs?

Conflicting Pressure ($\alpha_{\text{aligned}} < 0 \rightarrow \text{"No"}$)

Think: Toads and frogs are ... typically *distinguished from each other based on several characteristics* such as skin texture, habitat preference, and behavior. Toads generally have dry, rough skin and spend most of their time on land, while frogs ... *Given these distinctions, it is accurate to say that toads are not considered frogs.*

Answer: *No*

Aligning Pressure ($\alpha_{\text{aligned}} > 0 \rightarrow \text{"Yes"}$)

Think: Toads and frogs belong to the same family ... the question is asking if toads are frogs, which implies if toads can be classified under the term 'frogs'. *Since toads are a subset of frogs*, the answer should be Yes.

Answer: *Yes*
